Company Profile

Cleanstat, a privately owned company with over two decades of experience, specializes in manufacturing industrial garments and supplying cleanroom disposable products. Established in Malaysia in November 2002, we bring over 40 years of sales expertise to the industry.

Core Competencies:

Cleanroom Industrial Garments: Our expertise extends to the manufacturing of industrial garments, including cleanroom jumpsuits, smocks, aprons, and more. With our own state-of-the-art factory in Johor Bahru, Malaysia, we ensure quality and reliability in every garment.

Cleanroom Disposable Products: Cleanstat sources high-quality cleanroom disposable products from reputable suppliers in the USA, Korea, Japan, Malaysia, China, and other regions.

Diverse Fabric Range: We offer a wide range of fabrics sourced from China, Korea, and Taiwan to meet the unique needs of organizations. Our commitment to quality extends to our investments in cutting-edge sewing machines and comprehensive training programs for our skilled seamstresses.

Customer Base:

Our clientele comprises multinational corporations specializing in wafer fabrication, semiconductors, life sciences, hospitals, pharmaceutical and food manufacturing. Cleanstat has earned a reputation for delivering top-notch products tailored to the specific requirements of these industries.

International Presence:

We take pride in our global reach, with our garments being exported to Southeast Asia, China, and Japan. Our commitment to quality and reliability has positioned Cleanstat as a trusted supplier in international markets.

Supply Chain Expertise:

With a robust supply chain for cleanroom products, Cleanstat ensures timely and efficient delivery to meet the demands of our diverse clientele. We have cultivated reliable sources for disposable products such as shoe covers, disposable lab coats, and more.

Awards and Recognition:

Cleanstat has been recognized as a distributor of choice, having received awards from prestigious brands such as Berkshire and Bemcot for our excellence in distribution.

Mission Statement:

At Cleanstat, our mission is to provide cutting-edge cleanroom solutions and industrial garments that meet and exceed the highest industry standards. We are dedicated to innovation, quality, and customer satisfaction.

Conclusion:

Driven by a team of dedicated and experienced professionals, Cleanstat has built a successful and reputable track record. Whether you are in wafer fabrication, semiconductor manufacturing, life sciences, hospitals, pharmaceutical or food production, Cleanstat stands ready to meet your organization's needs with precision and excellence.

Cleanroom Fabrics

Cleanstat cleanroom fabrics are specifically engineered materials that offer superior protection against both particle contamination and electrostatic discharge (ESD) in controlled environments. These fabrics are predominantly made of high-quality filament polyester and carbon filament yarn. The high-quality filament polyester ensures durability, strength, and resistance to wear, making it suitable for demanding environments. The inclusion of carbon filament yarn enables effective ESD protection by facilitating the controlled dissipation of static charges. This feature helps prevent the accumulation of static electricity on the fabric's surface, minimizing the risk of ESD events.

ESD Conductive Knitted Fabric

Our ESD conductive fabric is a high-performance material designed to provide reliable protection against electrostatic discharge (ESD) in sensitive environments.

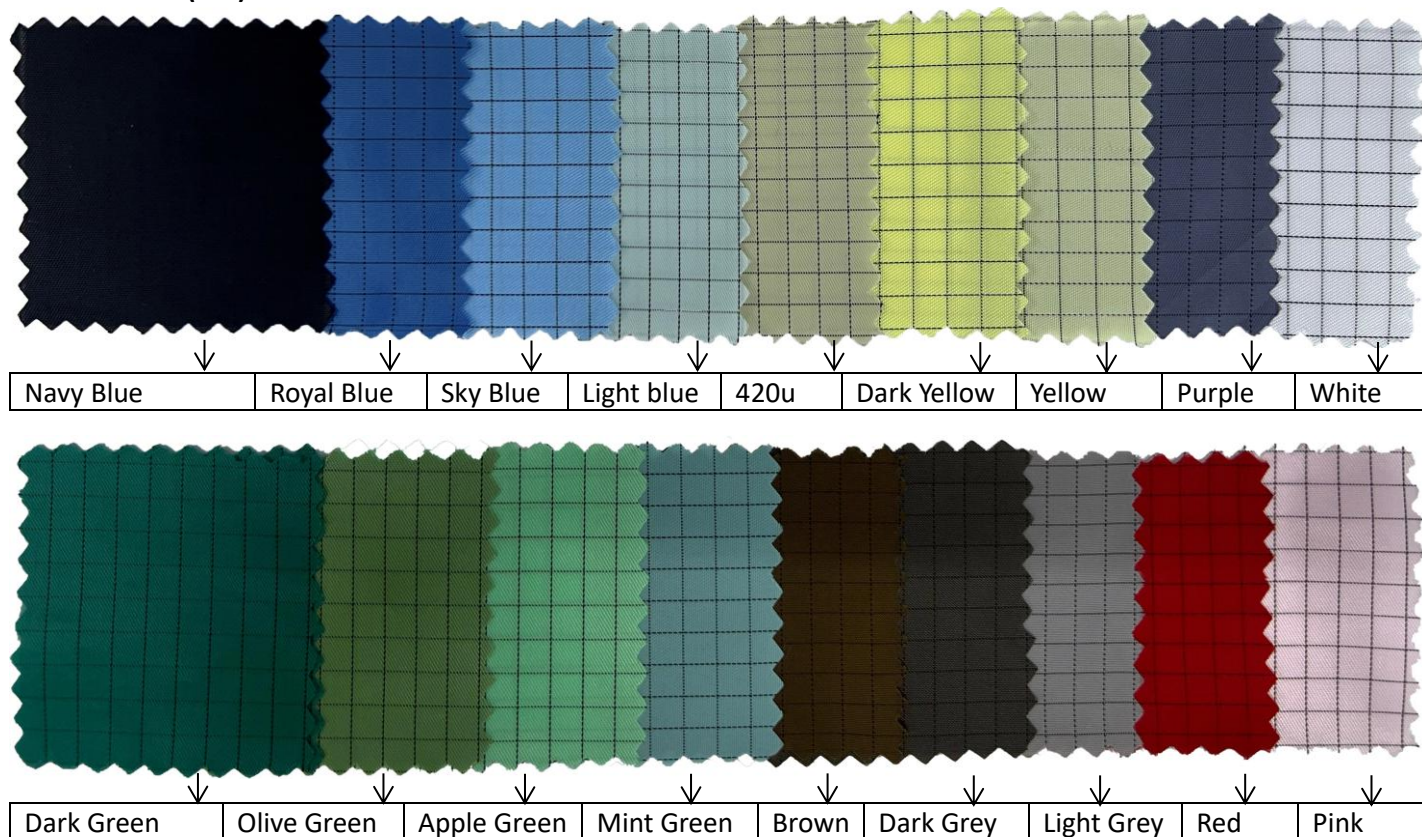

White	Sky Blue	Navy Blue
-------	----------	-----------

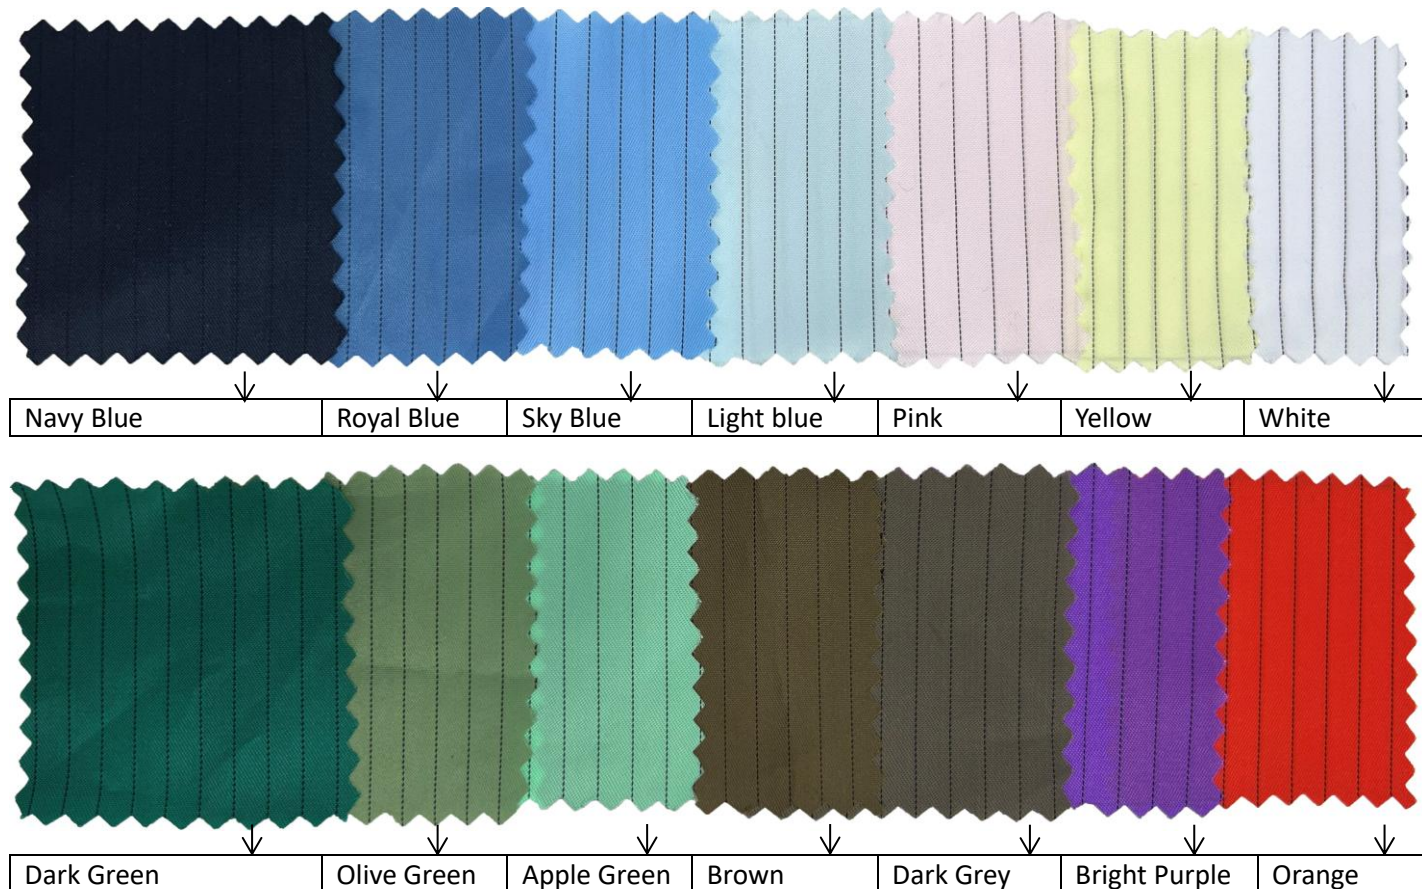

Characteristic:

- 1) Durable and breathable with good air permeability.
- 2) Embedded with conductive yarn to create a path for the static charges to dissipate safely.
- 3) Low surface resistivity range of $10e5 - 10e6$ Ohms/SQ (Tested accordance ASTM-D257)
- 4) Electrostatic Discharge (ESD) Protection
- 5) Cost-effectiveness

5mm MR Grid (MR)

5mm ST Strip (ST)

Characteristic:

- 1) High density weave offers superior filtration efficiency.
- 2) Durable and breathable with good air permeability.

Cleanroom Garments

Cleanroom Jumpsuit w/ Hood	CMU-10006
----------------------------	-----------

Features:

- Cleanroom Compatible
- Made of 98% Polyester, 2% Conductive Fiber
- Lint Free
- Light weight and breathable
- Washable and durable
- RTG: 10e7 – 10e9 ohms

Size Available

Disposable / Reusable Face Mask / Respirator

Particle Respirator Mask 8210

Features:

- NIOSH approved for at least 95 percent filtration efficiency against certain non-oil based particles
- Two-strap design with welded dual point attachment helps provide a secure seal
- Cushioning nose foam
- Adjustable noseclip helps provide a custom fit and secure seal
- Advanced electrostatic media is designed for ease of breathing

Particle Respirator KN95 Mask 9502

Features:

- Meets GB2626-2019 KN95 standards, effectively filtering at least 95% of airborne particles.
- Low breathing resistance with electrostatic filter
- Ergonomic 3D design with soft elastic ear loops for a snug yet comfortable fit.
- Convenient flat-fold design for easy storage and carrying.
- Durable and reliable performance

Reusable Respirator Mask

Features:

- Soft, elastomeric facepiece for wearer comfort
- Four-strap suspension means the mask is easy to put on and take off
- Large polycarbonate lens offers good visibility and that complies to relevant performance requirements of EN166:B
- For protection against gases, vapours and particulates

Reusable Half Respirator Mask

Features:

- Advance silicone material for increased comfort and greater durability
- Proprietary valve helps makes breathing easier
- Dual-mode head harness adjusts easily for either standard or drop-down mode
- Exhalation valve cover directs exhaled breath and moisture downward to reduce fogging

Cleanroom Chemical Resistance

ESD Chemical Resistant Arm sleeve

Features:

- Made on ESD Cleanroom Fabric laminated with chemical-proof film
- Protect from any potential risks to be exposed in dangerous and harmful chemical
- Particle and ESD Safe
- Surface Resistivity: 10e6 – 10e7 ohm (Back)
10e10 – 10e11 (Front)
- Size: 20cm x 40cm(L)

ESD Chemical Resistant Apron

Features:

- Made on ESD Cleanroom Fabric laminated with chemical-proof film
- Protect from any potential risks to be exposed in dangerous and harmful chemical
- Particle and ESD Safe
- Surface Resistivity: 10e6 – 10e7 ohm (Back)
10e10 – 10e11 (Front)
- Size: 64cm x 91cm (L)

ESD Chemical Resistant Coat Apron

Features:

- Made on ESD Cleanroom Fabric laminated with chemical-proof film
- Protect from any potential risks to be exposed in dangerous and harmful chemical
- Particle and ESD Safe
- Surface Resistivity: 10e6 – 10e7 ohm (Back)
10e10 – 10e11 (Front)

Ansell 56-910 PVC Vinyl Chemical Coat Apron

APRON-V

Features:

- Made of Virgin Vinyl 8 Mil Thickness
- Seams that are dielectrically sealed to reduce potential for contamination
- No exposed elastic or metal parts to cause static or corrosion
- Excellent resistance to punctures, abrasion, chemicals, fats, oils and greases.

Size Available

Sticky Roller, Sticky Pad

Sticky Roller Handle

Features:

- Sticky Roller Handle
- Available in varies size
- Extension pole available for wall and flooring

Available

3"	6"	12"	18"
----	----	-----	-----

Sticky Roller Refill

Features:

- Made of Polyethylene or Non-Woven
- High dust removal efficiency
- Cleaning floor surface and wall
- Easy maintenance
- Easy tearing

Available

3"	6"	12"	18"
----	----	-----	-----

Colour Available

Silicon Sticky Roller

Features:

- High dust removal efficiency
- Reusable and washable
- Cost effective
- Easy to maintain and reuse, minimizing waste

Available

4"	6"	8"	10"
12"	14"	16"	18"
20"	24"		

Sticky Pad (DCR-Pad)

Features:

- Strong adhesive surface to captures dust, dirt and debris
- Continuous use with easy disposal
- Remove debris from roller and tools
- Cost effective with multiple layers for extended use
- Easy to maintain, reducing cleaning time and effort

Bemcot™ cleanroom wipers are produced from Bemliese™, the 100% pure “cupro” cellulosic nonwoven derived from cotton linter-the fine, downlike fiber that naturally protects and cushions the seed of the cotton plant.

The result is pure, integral nonwoven composed of cellulosic cupro continuous filaments and containing no binder, oil or surfactant.

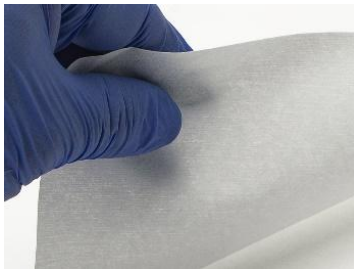

The advantages of Bemcot™ is high absorbency, low particle generation, heat resistance, high chemical resistance, Anti-static, ecoefficiency, biodegradability.

Berkshire Superpolx SE 9"x9"		WSPSE-0909.10S	
Features: <ul style="list-style-type: none">- Made of 100% continuous filament double knitted polyester- Ultrasonically sealed edge- Laundered and packaged in an ISO Class 4 Cleanroom- Sterilisable by autoclave, gamma or beta- Very good absorbency- Low particles and fibres- Soft hand and edge for sensitive surfaces		 	
Size Available			
4" x 4"	9" x 9"		
12" x 12"			

Berkshire Supra Wipe 1 9"x9"Stack		WSW1-0909.14	
Features: <ul style="list-style-type: none">- Made of 100% continuous filament polyester knit- Sealed edges- Good absorbency- Soft hand and edge for sensitive surfaces- High abrasion resistance- Lower contamination compared with industrial wipes		 	
Size Available			
4" x 4"	6" x 6"		
9" x 9"			

Berkshire MicroSeal® HA 9"x9"		WM-HA 0909	
Features: <ul style="list-style-type: none">- Made of 100% continuous filament double knitted polyester- Ultrasonically sealed edge- Laundered and packaged in an ISO Class 4 Cleanroom- High Absorbency- Critically low particles, fibers, ions and non-volatile residue		 	
Size Available			
9" x 9"			

Berkshire MicroSeal® 1500MD 9"x9"		WM-1500MD-0909.10	
Features: <ul style="list-style-type: none">- Made of 100% continuous filament polyester knit- Ultrasonically sealed edge- Laundered and packed in an ISO Class 4 Cleanroom- Low particles, fibres, ions and non-volatile residue- High absorbency and minimize residue after wiping		 	
Size Available			
9" x 9"			

Berkshire Pro-Wipe® OS 12"x12"		WPW-OS-1212.12	
Features: <ul style="list-style-type: none">- Made of 100% Polypropylene Melt blown nonwoven- High loft and soft texture- Low linting- Autoclavable- Engineered for oil absorption and retention- Excellent resistance to acids and bases		  	
Size Available			
12" x 12"			

Berkshire Pro-Wipe® 750 12"x12"		WPW-750-1212	
Features: <ul style="list-style-type: none">- Made of 70% Polypropylene / 40% Cellulose Nonwoven- Multi-layer composite with cellulose layer thermally bonded between the two polypropylene outer layers- High loft and soft texture- High absorbency- Extremely durable and pure with very low particle and fiber generation.		  	
Size Available			
4" x 4"	9" x 9"		
12" x 12"			

Berkshire Pro-Wipe® 880

WPW-880.ROLL

Features:

- Made of 100% Polypropylene Melt Blown nonwoven
- High loft and soft texture
- Engineered for compatibility with acid solvents
- Autoclavable
- Extremely durable and pure with very low particle and fiber generation

Size Available

8" x 10"	12" x 12"
35" x 300'	

Berkshire Lensx® 90 12"x12"

WL-LENSX 90-1212.4

Features:

- Made of 70% rayon / 30% manila hemp nonwoven
- Engineered for extreme softness
- Silicone free
- Extreme softness
- Nonabrasive
- Low extractables
- 100% biodegradable

Size Available

4" x 6"	9" x 9"
12" x 12"	24" x 36"

Berkshire SatPax® 670A 0909.24

WSPX-670A-0909

Features:

- Made of 55% Cellulose / 45% Polyester hydroentangled nonwoven blend
- Smooth, highly absorbent and durable
- Reduces alcohol usage and preparation/ handling costs
- Increase cleaning efficiency

Size Available

9" x 9"

Berkshire SatPax® 680A 0909.24

WSPX-680A-0909

Features:

- Made of 55% Cellulose / 45% Polyester hydroentangled nonwoven blend
- High saturation level with 70% IPA / 30% DI Water for more effective contaminant removal
- Smooth, highly absorbent and durable
- Reduces alcohol usage and preparation/ handling costs
- Increase cleaning efficiency

Size Available

9" x 9"

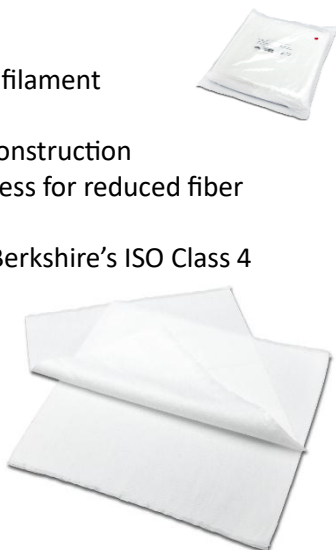

Berkshire Gamma Wipe® 300

Features:

- Made of 100% continuous filament polyester knit
- Two-Ply pinsonic tubular construction
- Patented sealed edge process for reduced fiber contamination
- Laundered and packed in Berkshire's ISO Class 4 cleanroom
- Gamma irradiated and sterile validate to a 10⁻⁶ Sterile Assurance Level per AAMI guidelines
- High absorbency

Size Available

12" x 12"

Berkshire Twillx® 1622 9"x9"

Features:

- Made of 100% woven cotton
- Bias cut and tight weave construction
- Good absorbency
- Excellent strength and durability
- High heat resistance
- Autoclavable
- Excellent resistant to the build up of electrostatic discharge in 40-60% RH environments

Size Available

9" x 9"	12" x 12"

Berkshire Ergonomic Cleanroom Flat Mop Holder

Features:

- Easy to insert of the holder into the pouches of the mop
- No touching of soiled mops when discarding
- Optimum contact of the holder for very good particle removal
- Light weight makes it ideal for cleaning walls and ceilings.
- Extremely maneuverable and smooth-running holder
- Autoclavable

Size Available

4" x 16"

Berkshire Ergonomic Cleanroom Flat Mop Telescoping Handle

Features:

- Durable anodized aluminium with polypropylene grip
- Lightweight makes it perfect for ceiling cleaning
- Fully autoclavable (Recommended maximum 120° for 30mins)

Size Available

35" x 65"

Berkshire Flat Mop Cart with Buckets

Features:

- Made of high-quality stainless steel
- Locking casters provide stability during use
- Two 20 Litre polypropylene buckets are colour coded grey and red to differentiate between clean and dirty solutions
- Wringer and Sieve are made of high-quality stainless steel, suitable for the one-step wet cleaning process (Optional)

Berkshire Flat Mop Nonwoven Cover

Features:

- Made of 68gsm polyester/cellulose outer cover
- 100% rayon nonwoven inner layers provide superior absorbency
- High tear strength
- Each cover is individually wrapped to preserve cleanliness
- Autoclavable and compatible with gamma and ETO sterilization

Size Available

4.5" x 15"

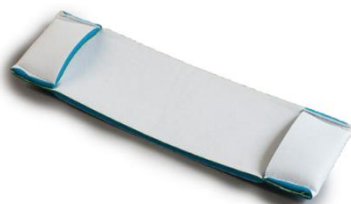

Berkshire Flat Mop Foam Cover

Features:

- Abrasion resistant polyester knit clean room fabric laminated to absorbent polyurethan foam
- Laser cut to minimize fiber and particle release
- 10mm thickness provides cushioned surface for optimum conformance to uneven floors, walls, and ceilings
- Autoclavable and compatible with gamma and ETO sterilization

Size Available

4.5" x 15"

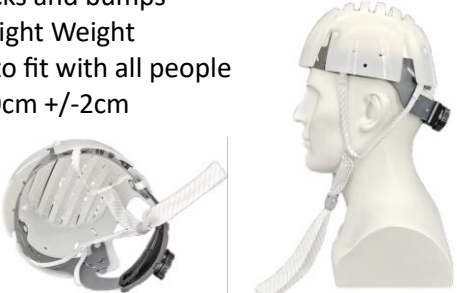

Berkshire Flat Mop Cover

Features:

- Nonwoven - Superior strength and absorbency - an ideal choice for general purpose work
- Polyester- lightweight, tight knit construction, low abrasion, limits picking and snagging
- 2 Ply Sealed Knit - highly absorbent, suitable for critical spill control and cleanroom cleaning application
- Microfiber – high level of cleanliness, abrasion resistance, and absorptive performance

Product	Size Available
Durx® 670 – Nonwoven	10" x 18"
MicroSeal®-VP – Polyester	10" x 18"
MicroSeal® SuperSorb - Polyester	10" x 18"
MicroPolx® 2750 – Microfiber	10" x 18"

Cleanroom Stationery

ESD Clip Board

Features:

- ESD Clip Folder
- Ideal for writing in Cleanroom ESD Control Area
- Used for Paper or Engineering Drawing
- Made of Polyethylene
- Surface Resistivity: $10e8$ to $10e10$

ESD Arch File

Features:

- ESD Arch File
- Ideal for writing in Cleanroom ESD Control Area
- Used for Paper or Engineering Drawing
- Made of Polyethylene
- Surface Resistivity: $10e8$ to $10e10$
- Available in 2 Inch or 3 Inch

ESD Clear U Folder

Features:

- ESD Soft Document Holder
- Used in Static Control Area and Cleanroom to hold Production Sheet / Process Chart / Engineering Drawing for file
- Made of Amide free Static Dissipative Polyethylene
- Surface Resistivity: $10e10$ Ohm Square

ESD Calculator

Features:

- Made of ABS
- Reduces risk of damage to sensitive electronic components
- Helps ensure compliance with ESD protection requirements
- Surface Resistivity: $10e7$ to $10e9$
- Size: 12cm x 15cm

ESD Mouse Pad

Features:

- Prevent static discharge
- Non-slip base
- Smooth & durable surface
- Surface Resistivity: $10e6$ to $10e9$
- Size: 22cm x 18cm x 2mm (T)

ESD Scissors

Features:

- Prevent static discharge
- Handy & easy to grip
- Durable
- Surface Resistivity: $10e5$ to $10e8$
- 15.5cm Length

Cleanroom Vacuum Pen / Brush

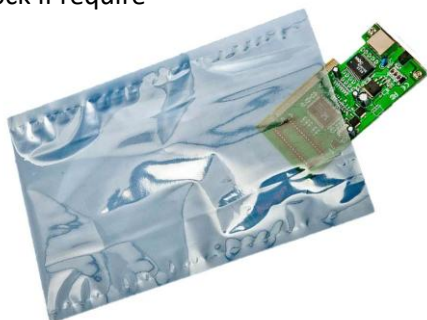

ESD Vacuum Pen		CST-69031	
Features: <ul style="list-style-type: none">- Air Pocket Vacuum Handling Tool- Made of antistatic material- Used to absorb small size IC and LCD- Resistivity: 10e6 to 10e9 Ohm- Cupula Size: 3.5mm, 6mm, 9mm 			
ESD Vacuum Pen		CST-6903	
Features: <ul style="list-style-type: none">- Anti-static vacuum handling tool- Made of antistatic material- Used to absorb small size IC and LCD- Resistivity: 10e6 to 10e9 Ohm- Cupula Size: 3.5mm, 6mm, 9mm 			
Electrostatic Discharge (ESD) Brush			
Features: <ul style="list-style-type: none">- Made of Anti-Static PA and Electric PP Material- Brush material: Nylon Black / Nylon White / Brass- Make use of Corona discharge and Electrostatic leakage, clean surface static and dirt of objects- Brush will not produce dust nor lose colour- Resistant to High Temperature- Resistance: 10e3 to 10e9 Ohm Square

Cleanroom LDPE / HDPE / Tyvek Bags

ESD Static Shielding Bag

Features:

- Ideal for electronic parts packaging
- ESD Properties
- come with/without ESD Logo
- Available with ziplock if require

ESD Transparent Polyester Bag

Features:

- Made on 4 Layers construction
- Design for "Dry Packaging" and protection of sensitive components from moisture and static damage
- Excellent puncture resistance
- ESD Properties

Cleanroom Class 100 LDPE Bag

BAG-LDPE

Features:

- Made of 100% Low-Density Polyethylene
- Manufactured in ISO 5 cleanroom
- Cost effective
- High puncture resistance

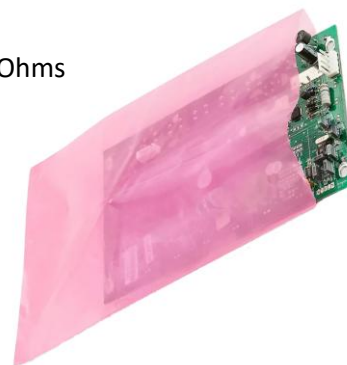

Available in different sizes

Cleanroom Class 100 LDPE ESD Pink Bag

Features:

- Made of 100% Low-Density Polyethylene
- Manufactured in ISO 5 cleanroom
- Cost effective
- Anti-static Pink
- Surface Resistivity: 10e10 Ohms

Available in different sizes

Coated Tyvek Packaging Bag

Features:

- Ideally for sterile packaging
- Durable & puncture resistance
- Lightweight & flexible
- Protects contents from moisture and chemical resistance

Available in different sizes

Pink ESD Antistatic Bubble Roll

Features:

- Made of 100% Low-Density Polyethylene
- Prevent static buildup, safeguarding sensitive components
- reduce breakage risks during storage and transportation
- Enhances efficiency in ESD sensitive work environments

Available in different sizes

ESD Products

Electrostatic Discharge (ESD) Wrist Strap

Features:

- Made of high-quality coil cord materials for long-lasting use
- Easy adjustable wrist strap
- High abrasion, resistant wear
- Prevent static damage
- Resistivity: 1 megohm, +/- 5%
- Decay Time: < 0.1 Second

Available in:

Elastic Wrist Strap	Velcro Wrist Strap
Snap Button Wrist Strap	

Electrostatic Discharge (ESD) Heel Strap

Features:

- Safely dissipates static electricity to prevent damage to sensitive electronics.
- Durable Conductive Ribbon
- Adjustable Elastic Strap
- Reusable & cost effective
- Easily worn over regular footwear without discomfort

Cleanroom Tweezer

Cleanroom ESD Tweezer Black / White

Features:

- Made of carbon fiber
- Resistance to alcohol and some chemicals
- Resistivity: 10e6 ohm squares (Only Black, White is not ESD)
- Specially developed for use in test laboratory, hospital, microelectronic, watch and jewellery
- Sharp Tip - 2001, Flat Tip - 2002,
- Straight Flat Point – 2003, Straight Tapered Flat Point - 2004
- Angle Tip – 2005

Colour Available

Cleanroom ESD Stainless Steel Tweezer

Features:

- Made of stainless-steel SS 304
- Resistance to alcohol and some chemicals
- Resistivity: 10e6 ohm squares
- Specially developed for use in test laboratory, hospital, microelectronic, watch and jewellery
- Sharp Tip - 2001, Flat Tip - 2002,
- Straight Flat Point – 2003, Straight Tapered Flat Point - 2004
- Angle Tip – 2005

Cleanroom Furniture (Table, Wire Shelf, Utility Cart, Security Cage)

Stainless Steel Bench

Features:

- Durable for cleanroom environments
- Minimizes contamination risks and ensure structural integrity
- Suitable for ESD-sensitive and sterile environments

Chrome Security Cage

Stainless Steel Security Cage

Features:

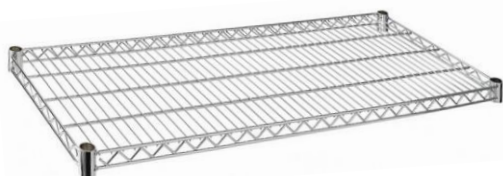

- Protects valuable materials and sensitive items
- Safe Transportation
- Mobile units
- Size 24"(W) x 48"(L) x 68.5"(H)

Cleanroom Chrome Wire Shelving Rack

Features

- Open wire design shelves to minimizes dust accumulation and allow air circulation
- Adjustable shelves at 1" (25mm) intervals along the length of post
- Choice of various sizes
- Durability
- Dividers are available for separation storage item

Chrome Wire Shelf (W x L)

Chrome Post (H)
